First Time Execution

When GEET Public App is opened for the first time, It requires to download scheme related data for a particular state. Hence we need to first request for list of states and once the state list is obtained, select a particular state for which we want to perform scheme search operations.

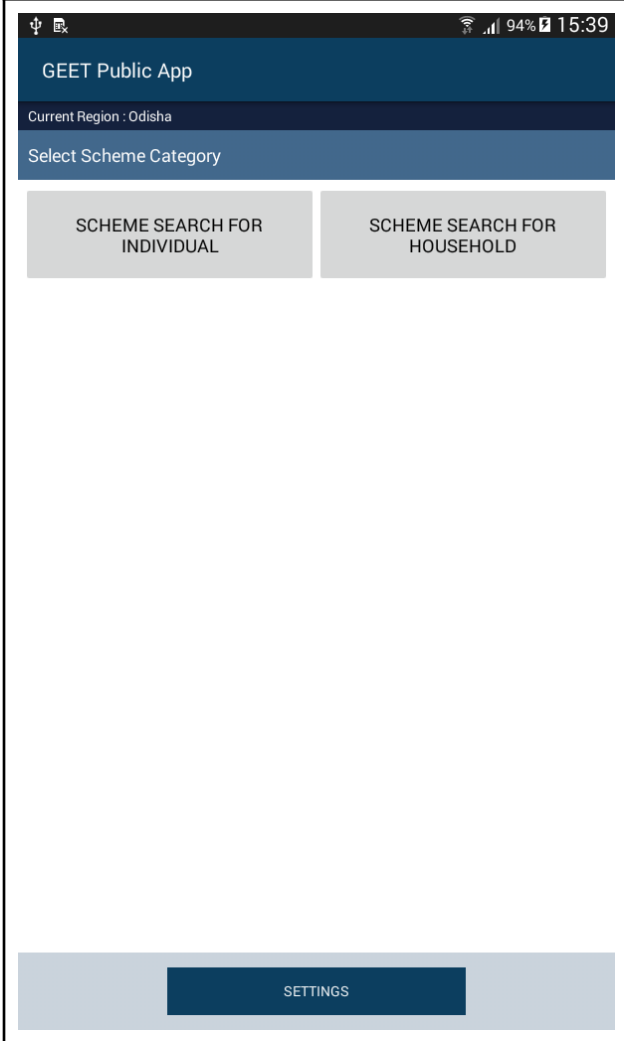

Once the user selects the State, the app will download all the schemes related data for the selected state. User will need to have a working internet connection. No other operation can be performed in the app, while the data is being downloaded.

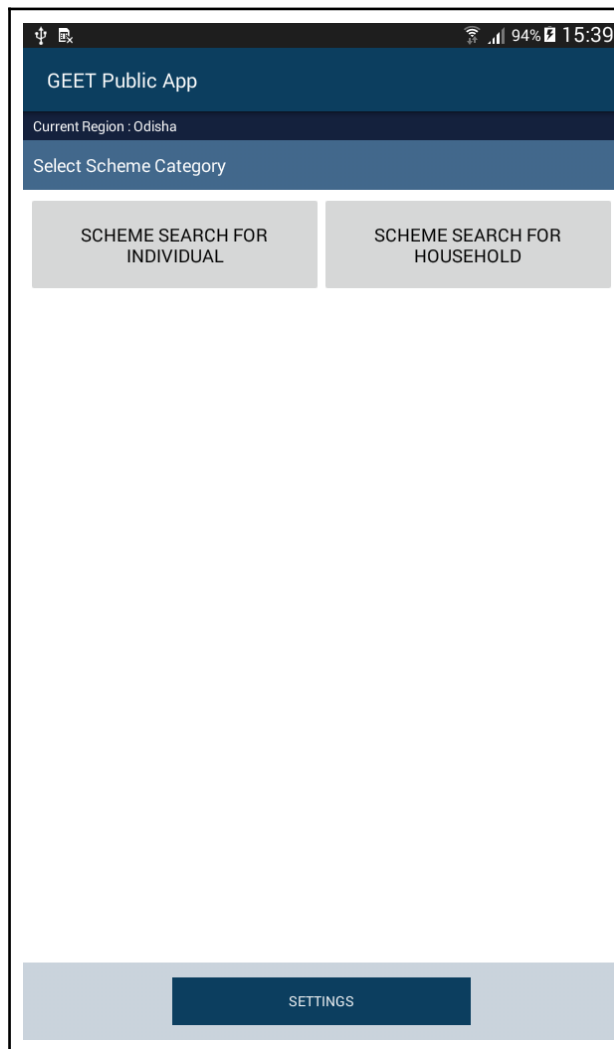

On successful download of required data, Main Screen will appear.

The Main Screen

The following screenshot demonstrates the Main Screen

 <p>The screenshot shows the main interface of the GEET Public App. At the top, the status bar displays signal strength, Wi-Fi, 94% battery, and the time 15:39. Below the status bar, the app title 'GEET Public App' is displayed in a dark blue header. Underneath, the current region is set to 'Odisha'. A section titled 'Select Scheme Category' contains two buttons: 'SCHEME SEARCH FOR INDIVIDUAL' and 'SCHEME SEARCH FOR HOUSEHOLD'. At the bottom of the screen, there is a 'SETTINGS' button.</p>	<p>The Public App of GEET allows its users to perform scheme search for schemes applicable to Individuals and to Households for a selected state.</p> <p>At the top, just below the title, the app displays the currently selected state.</p> <p>There are two buttons that initiate the primary function of the app:</p> <ol style="list-style-type: none">1. Scheme Search for Individual2. Scheme Search for Household <p>At the bottom of the screen, we have the “Settings” button.</p>

Searching Schemes

As a first step, we need to choose whether we want to search schemes for Individuals or for Households.

As the name suggests, the button - "Scheme Search for Individual" allows for checking available schemes applicable to Individuals based on certain search criteria.

Similarly, the button - "Scheme Search for Household" allows for available schemes applicable to Households based on certain search criteria.

Scheme Search for Individuals:

The screenshot displays the 'Scheme Search For Individual' interface. At the top, there is a back arrow and the title 'Scheme Search For Individual'. Below the title is a section labeled 'Select Scheme Category'. This section contains an input field for 'EC Number' with the placeholder text 'Enter EC Number' and a dark blue 'SEARCH' button. Below the search bar, the word 'OR' is centered. Underneath, there is a grid of ten colored buttons representing different scheme categories: SOCIAL SECURITY (light blue), SKILL DEVELOPMENT (orange), SANITATION (green), HEALTH AND NUTRITION (red), LIVELIHOODS AND EMPLOYMENT (purple), HOUSING (pink), WOMEN AND CHILD DEVELOPMENT (light green), INSURANCE (blue), ALL (maroon), and AGRICULTURE (dark blue).

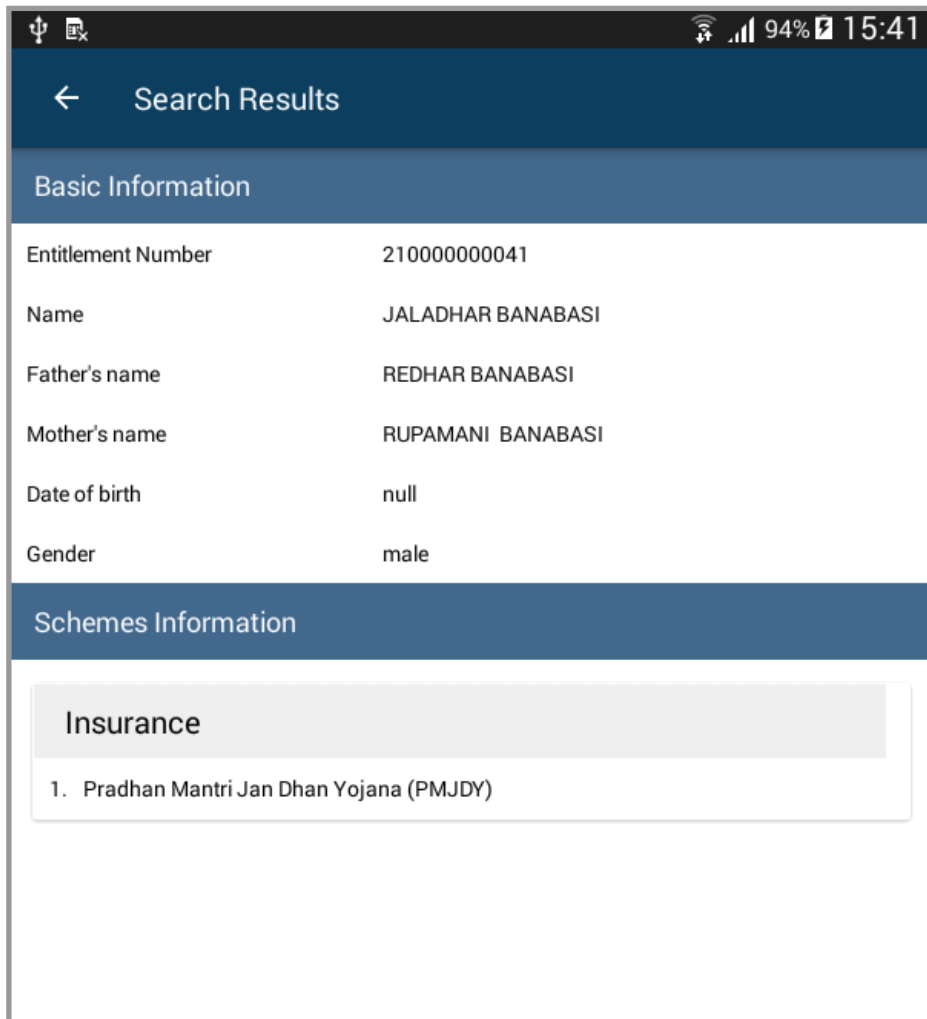

Search using Entitlement Card Number:

The upper section allows us to directly enter the Entitlement Number (EC ID) and display the list of schemes applicable for the designated Individual. This feature **requires active internet connection** to obtain the required information pertaining to the individual to check and display the schemes applicable to that individual.

Search using specific criteria:

If however, we need to provide a certain criteria of information related to any of the different categories like Social Security, Skill Development, Sanitation, Health and Nutrition, Livelihoods and Employment, Housing etc and check which all schemes are applicable according to the criteria then we can tap on the information category, enter the required criteria and tap on Search to show the results.

Scheme Search Result for Individual using Entitlement Number:

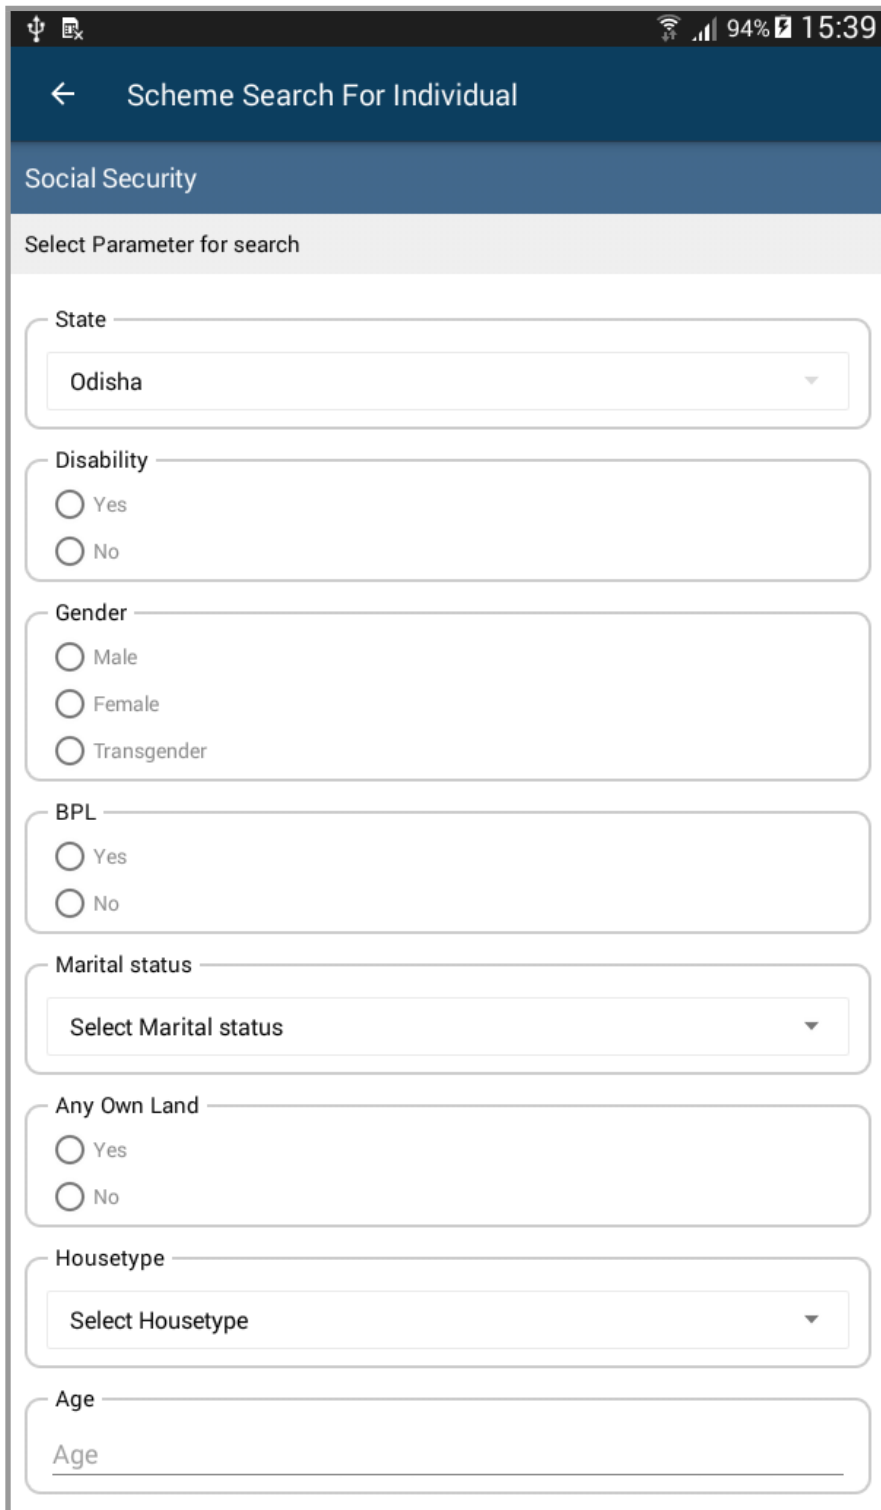

The screenshot shows a mobile application interface with a dark blue header bar containing a back arrow and the text "Search Results". Below the header is a section titled "Basic Information" with a light blue background. This section contains a list of personal details: Entitlement Number (210000000041), Name (JALADHAR BANABASI), Father's name (REDHAR BANABASI), Mother's name (RUPAMANI BANABASI), Date of birth (null), and Gender (male). Below this is another section titled "Schemes Information" with a light blue background. Underneath, there is a grey box labeled "Insurance" which contains a single entry: "1. Pradhan Mantri Jan Dhan Yojana (PMJDY)". The top status bar of the phone shows various icons including signal strength, Wi-Fi, 94% battery, and the time 15:41.

Basic Information	
Entitlement Number	210000000041
Name	JALADHAR BANABASI
Father's name	REDHAR BANABASI
Mother's name	RUPAMANI BANABASI
Date of birth	null
Gender	male

Search using Household Number:

The upper section allows us to directly enter the Household Number and display the list of schemes applicable for the designated Household. **This feature requires active internet connection** in order to obtain the required information pertaining to the household to check and display the schemes applicable to that household.

Search using specific criteria:

If however, we need to provide a certain criteria of information related to any of the different categories like Social Security, Skill Development, Sanitation, Health and Nutrition, Livelihoods and Employment, Housing etc and check which all schemes are applicable according to the criteria then we can tap on the information category, enter the required criteria and tap on Search to show the results.

Scheme Search using search Criteria:

The screenshot displays a mobile application interface for searching household schemes. At the top, there is a dark blue header with a back arrow and the text "Scheme Search For Household". Below this is a sub-header "Social Security". The main content area is titled "Select Parameter for search" and contains several form fields:

- State:** A dropdown menu with "Odisha" selected.
- Gender:** Three radio button options: "Male", "Female", and "Transgender".
- BPL:** Two radio button options: "Yes" and "No".
- Marital status:** A dropdown menu with "Select Marital status" selected.
- Any Own Land:** Two radio button options: "Yes" and "No".
- Housetype:** A dropdown menu with "Select Housetype" selected.
- Age:** A text input field with the placeholder text "Age".

At the bottom of the form is a dark blue button labeled "SEARCH". The top status bar shows a USB icon, signal strength, 94% battery, and the time 15:42.

- Health and Nutrition Category:** A grey header bar with the text "Health and Nutrition". Below it, a list item: "1. Targeted Public Distribution System (TPDS)".

Settings

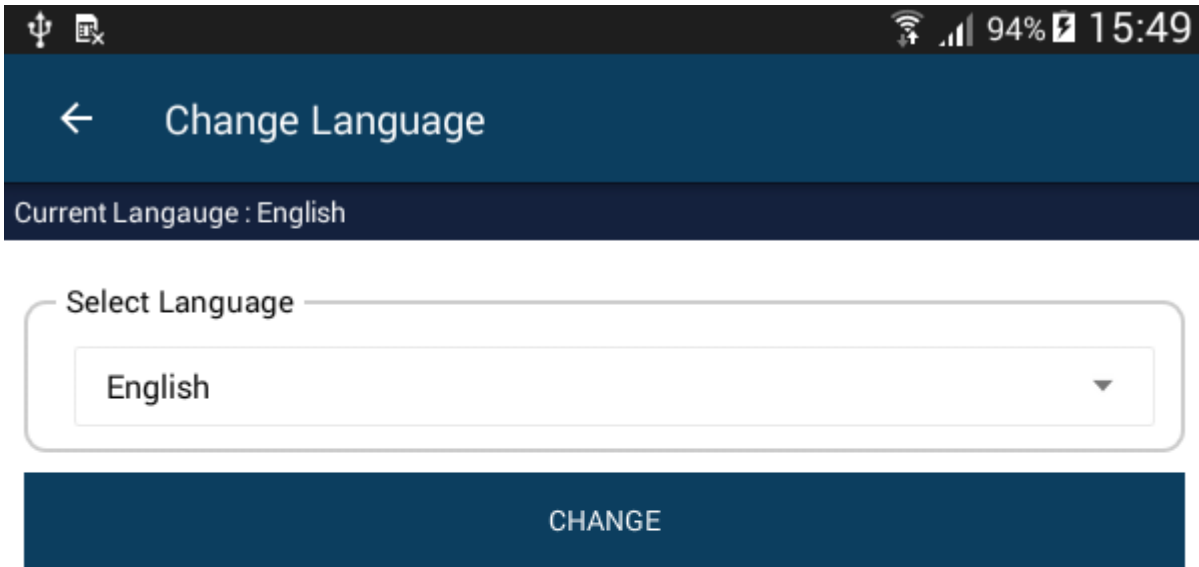

In order to open the Settings screen, tap on the “Settings button in the Main Screen.

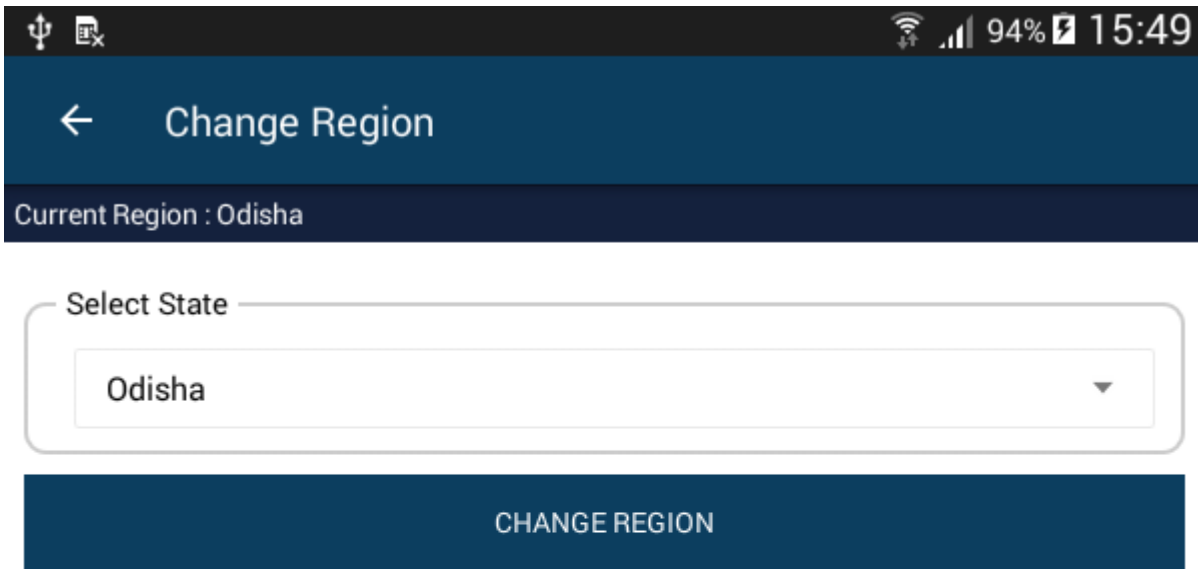

The following three options are available under the Settings Screen:

- **Get Data** (Requires Active Internet Connection)
 - The GEET Public App works without internet connection. However all the information related to schemes of the selected state need to be obtained from GEET server. The app gets this data on first execution. The Get Data button obtains the latest changes made to scheme related information on GEET server. Performing “Get Data” operation regularly helps keep the scheme information up to date.

- **Change Language**
 - Select new language and tap on “Change” to change to another language.
 - Changing of Language **doesn't require active internet connection.**
 - The currently selected language is shown just below the title of the screen.

- **Change Region** (Requires Active Internet Connection)
 - Select new State tap on "Change Region" to change the region of operation.
 - The currently selected region is displayed just below the title of the screen.
 - When a user changes region, the app downloads all the schemes related information from GEET server. Hence, this operation requires Active Internet Connection.
